Weekly Roundup

Supplement 5-8

September 18, 1986

The Foreign Agricultural Service of the U.S. Department of Agriculture today reported the following developments in world agriculture and trade.

U.S. AGRICULTURAL TRADE ATRUC

Cumulative U.S. agricultural exports during October-July 1986 totaled \$22.5 billion, down \$4.8 billion (18 percent) from the same period a year earlier. Export volume during the first 10 months of fiscal 1986 totaled 92.8 million tons, down approximately 16 percent from the 110.3 million tons exported during the first 10 months of fiscal 1985.

Agricultural exports during July 1986 totaled \$1.7 billion, down \$100 million (6 percent) from July 1985, but up 1 percent from the \$1.68 billion exported during the previous month. Export volume for July 1986 totaled 7.4 million tons, up about 4 percent from the 7.1 million tons exported during July 1985, and 600,000 tons above the previous month.

The sharpest year-to-year market declines continue to be concentrated in corn, grain sorghum, barley, cotton, soybean oil and sunflowerseed exports. Though cumulative exports-to-date of wheat and rice remain below last year's level, sharp gains have been posted in recent months due to implementation of the new marketing loan rates which lowered the effective market prices for these two commodities considerably. Value gains in exports of wheat flour, soybeans, soybean meal, beef and veal, poultry products, corn gluten feed and some individual product groups within the horticultural products complex have partially offset the declines mentioned above.

U.S. agricultural imports for October-July 1986 totaled \$17.7 billion, up 7 percent from the October-July 1985 total for the same period. Imports for July 1986 totaled \$1.8 billion, 23 percent above July 1985. The overall net surplus of agricultural trade during October-July 1986 amounted to \$4.8 billion, down 56 percent from a net surplus of \$10.7 billion during the same period a year earlier.

Do you need information about

- Overseas markets and buying trends?
- New competitors and products?
- · Trade policy developments?
- Overseas promotional activities?

Then Foreign Agriculture — USDA's fact-filled monthly agricultural trade magazine — is for you. Based on official USDA data available nowhere else, Foreign Agriculture articles are clear and crisp, written to provide the export information you need, in a concise and extremely readable form.

Special information is found in Foreign Agriculture's telegraphed, targeted news departments: Fact File, Country Briefs, Trade Updates and Marketing News. And its tables and graphs will give you an immediate grasp of what's going on overseas.

In addition, periodic special issues—such as the one devoted entirely to value-added exports—will give you a wide range of detailed information about overseas markets.

If you use agricultural facts and figures in your business, you need Foreign Agriculture.

Subscribe today! Just \$16.00 (\$20.00 for foreign delivery) brings you Foreign Agriculture for 12 full months.

FAS Circulars: Market Information For Agricultural Exporters

As an agricultural exporter, you need timely, reliable information on changing consumer preferences, needs of foreign buyers, and the supply and demand situation in countries around the world.

The Foreign Agricultural Service can provide that information in its commodity circulars.

World agricultural information and updates on special FAS export services for the food and agricultural trade all are available in these periodic circulars.

For a sample copy of these reports—which can supply you with the information you need to make sound business decisions—check the box indicated, fill out the address form and mail it today.

To subscribe: Indicate which publications you want. Send a check for the total amount payable to the Foreign Agricultural Service. Only checks on U.S. banks, cashier's checks, or international money orders will be accepted. NO REFUNDS CAN BE MADE. Mail this form to: Foreign Agricultural Service
